

**BOLD HEARTS.  
BRILLIANT MINDS.**

## THE NATION'S LEADER FOR SOCIAL MOBILITY.

At UC Riverside, our 26,000+ students turn California dreaming into California doing. It's part of who we are — dedicated to uplifting our students, a majority of whom are first-generation or underrepresented minorities. We're a member of the University Innovation Alliance, the leading national coalition of public research universities committed to improving student success for low-income, first-generation, and students of color. And for four consecutive years, we've been named the top public university in the nation for social mobility by U.S. News & World Report.

Best Value Colleges"

## LAUNCHING A NEW GENERATION OF INNOVATIVE THINKERS.

As part of the top 1.3% of universities worldwide, according to the Center for World University Rankings, our students and faculty are powered by a great education, world-leading research, and knowledge-driven impact. Our esteemed faculty — among them two Nobel Prize winners and more than two dozen members of the National Academies — teach and inspire, sparking curiosity in our Highlanders and empowering them to accelerate their bold ideas and challenge the status quo.

## WHAT HAPPENS HERE BLAZES TRAILS EVERYWHERE.

Ranked among the top 15 best public universities in the nation, UC Riverside has created a new model for what a great public research university can achieve. Our unique combination of world-class research, combined with customized experiential learning opportunities across hundreds of fields, equips our graduates to influence, impact, and change the world. Our extraordinary growth and momentum was recognized in 2023 when UCR became a member of the prestigious Association of American Universities, or AAU, comprised of the 71 leading research universities in North America.

## AWARD-WINNING FACULTY EDUCATE AND ELEVATE.

- 2 Guggenheim Awards
- 4 UC University Professorships
- 11 Fulbright Scholars

## POWERING NEW POSSIBILITIES AND TRANSFORMING LIVES.

At UC Riverside, we don't just answer problems — we create meaningful solutions for transformative change. More than half of our medical students are from the region and many stay here to practice, addressing our physician shortage and improving the health of our communities. On a broader scale, we fuel positive economic growth throughout the nation and the state. The university contributes \$2.7 billion in nationwide annual economic activity, \$1.9 billion of which occurs in California.

## BUILDING A BETTER FUTURE FOR ALL.
